THE SICK HEADACHE.

THIS DISEASE is one from which arises more misery to the human family than is generally thought; not being directly fatal, it is often neglected—for persons resort so much to the use of purgatives and other medicines as to impair their general health, and often induce fatal diseases. The article—Dr. Spohn's HEADACHE REMEDY, now offered seems to have overcome these difficulties. While its effects are most powerful and immediate in curing an attack or keeping it off, it is so perfectly mild and innocent as to be used for infants with the greatest effect and safety. This has now been tested by so many of the highest members of the community as to require no further proof.

CLEANLINESS OF THE HEAD AND HAIR.

STRANGE it is that persons who attend strictly to personal cleanliness, baths, &c., should neglect the Head—the Hair—the most essential—the most exposed—and the most beautiful, when properly cared for, of all the gifts of the Creator. Perfectly free may it be kept of dandruff or scurf, with certainty that the hair cannot fall out, by the use of the BALM OF COLUMBIA. Ladies will you have your toilet without this article? I answer decidedly no, if you have once tried and experienced its purifying effects—sweet perfume.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has obtained Letters Patent from the Government of United States.

These Wheels are simple in their construction, strong and durable, are easily put in operation, and are not liable like most other wheels to get out of order. They are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have one of said wheels in operation. Jacob Drum Esq. James B Fiske, Amos Davis and Leonard Inman, Esqrs, Messrs Fiske & Norcross, Foster Inman S. P. & H. Strickland, W. T. & H. Wise & Co. Bangor; Hon. J S. Little, Portland; John Otis, Hallowell, F. A. Butman, Esquire, Gardiner; Robert Treat, Geo. A. Peirce, Esquires, Bangor; Daniel Dennett, Esq Milo; Col. Henry Milton; Messrs. Fiske & Bridge, Milford; Ira Leigh, Esq. Oldtown: Capt. R. Fittz, Dedham; Black and John M. Hale, Esqrs Ellsworth;—Wood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at Iron Foundries of Messrs. HINCKLEY & FAY and FRANKLIN MUZZY & Co in this city who are furnished with a great variety of patterns so that Wheels of any particular description, adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

REDUCTION FOURFOLD IN PRICES—OR NOTHING.

AN article that every family must consider indispensable, when they know its power and value and which has heretofore been sold too high to bring it to all classes, has now been reduced fourfold in price, with a view that rich and poor, high and low, and in fact every human being may enjoy its comforts; and all who get it shall have the price returned to them if they are not delighted with its use. We assert, without the possibility of contradiction, that all burns and scalds, every external sore, old or fresh, and all external pains and aches, no matter where, shall be reduced to comfort by it in five minutes—saving life, limb or scar. No burn can be fatal if this is applied, unless the vitals are destroyed by the accident. It is truly magical, to appearance, in its effects Enquire for "Connel's Magical Pain Extractor," at Comstock & Co's., 21 Cortland street. The White-Footed Deer.*

BY WILLIAM CULLEN BRYANT.

It was a hundred years ago,
When, by the woodland ways,
The traveller saw the wild deer drink,
Or crop the birchen sprays.

Beneath a hill, whose rocky side
O'erbrowed a grassy mead,
And fenced a cottage from the wind,
A deer was wont to feed.

She only came when on the cliffs
The evening moonlight lay,
And no man knew the secret haunts
In which she walked by day.

White were her feet, her forehead showed
A spot of silvery white,
That seemed to glimmer like a star
In Autumn's hazy night.

And here, when sung the whippoorwill,
She cropped the sprouting leaves,
And here her rustling steps were heard
On still October eves.

But when the broad midsummer morn
Rose o'er that grassy lawn,
Beside the silver-footed deer
There grazed a spotted fawn.

The cottage dame forbade her son
To aim the rifle here;
"It were a sin," she said, "to harm
Or fright that friendly deer.

This spot has been my pleasant home,
Ten peaceful years and more;
And ever, when the moonlight shines,
She feeds before our door.

The red men say that here she walked
A thousand moons ago;
They never raise the warwhoop here,
And never twang the bow.

I love to watch her as she feeds,
And think that all is well,
While such a gentle creature haunts
The place in which we dwell."

The youth obeyed, and sought for game
In forests far away,
Where deep in silence and in moss,
The ancient woodland lay.

But once, in Autumn's golden time,
He ranged the wild in vain,
Nor roused the pheasant nor the deer,
And wandered home again.

The cresent morn and crimson eve
Shone with a mingling light;
The deer, upon the grassy mead,
Was feeding full in sight.

He raised his rifle to his eye,
And from the cliffs around
A sudden echo, shrill and sharp,
Gave back its deadly sound.

Away the startled creature sprang,
And the next sunrise threw
Its rays on many a crimson drop,
Amid the glimmering dew.

Next evening shone the waxing moon,
As sweetly as before;
The deer upon the grassy mead,
Was seen again no more.

But ere the crescent moon was old,
By night the red men came,
And burnt the cottage to the ground,
And slew the youth and dame

Now woods have overgrown the mead,
And hid the cliffs from sight,
There shrieks the hovering hawk at noon,
And prowls the fox at night.

*During the stay of Long's expedition at Engineer Cantonment, three specimens of a variety of the common deer were brought in, having all the feet white near the hoofs and extending to those on the hind feet from a little above the spurious hoofs—"The white extremity was divided upon the sides of the foot, by the general color of the leg which extends down near to the hoofs leaving a white triangle in front, of which the point was elevated rather than the spurious hoofs—*Godman's Natural History*, Vol II p 314.

Canal Across the Isthmus.

Jamaica papers to the 26 ult received at New Orleans, contain the following letter dated

BASSETERE, Guadaloupe, Dec 19, 1843

"The government of Panama has at length decided on granting us the land, through which the communication between the seas will pass, by its decision of the 20th September last. Although the government of Bogota had given orders to the same effect since 1840 yet the authorities of Panama had evaded up to this time the making of that concession to us, which forced us to suspend our labors. In compliance with my instructions these labors should have been resumed since November, and I hope that before a year, a free means of communication will be established after the system "simiculaire," which will admit of the passage from Chages to Panama in less than eight hours. It will then no doubt be believed that our operations are serious.

"The French Engineers whom the government has just sent to the Isthmus, the particular mining engineers, and their special mission is to examine the quality of the coal found in our newly acquired property, and which we have offered for the supply of the transatlantic steamers. These gentlemen at our instance will also examine our Andes for a ship canal, which must complete the works now in execution."

FRIDAY, MARCH 1, 1844.

FOR PRESIDENT,

HENRY CLAY,

OF KENTUCKY.

FOR VICE PRESIDENT,

GEORGE EVANS,

OF MAINE.

SUBJECT TO THE DICISION OF THE BALTIMORE WHIG CONVENTION.

☞ SEE FIRST PAGE.

WHIG CAUCUS.

THE WHIGS of the City of Bangor are one and all requested to meet at the City Hall on SATURDAY EVENING NEXT, at seven o'clock to nominate a Candidate for MAYOR of the city the ensuing municipal year, and to transact such other business as may properly come before the meeting.

Per order of the City Committee.

Bangor, March 1, 1844.

Whig Caucus.

We place at the the head of our columns to day the call of the Whig City Committee for a Caucus to be holden at the City Hall on Saturday evening to nominate a candidate for Mayor and to make arrangements for the municipal election and for the general organization of the Whigs of the city. The meeting is an important one and should be generally attended by the Whigs of the city, that a proper selection of a candidate may be made and all the proceedings so conducted as to secure a full vote.

The Whigs of Bangor in common with the Whigs throughout the Union are entering upon a year of great political importance. This year the people will be called upon to give in their votes for a president of the United States and as this matter involves the general policy of the government—the measures that shall be adopted and the duties that shall be performed by the government, it becomes every man to examine with caution, decide with prudence and act with reference to all the great interests concerned.

The Whigs of Bangor feel a deep interest in the result of the elections that are to take place during the year. They should not allow any minor or partial differences to interfere with the great objects, so essential to the welfare of the whole country, which they have at heart. And we feel assured that the free expression of the Whigs at a full meeting will receive the sanction and insure the active co-operation of every Whig in the city. Let us all go up then on Saturday night and freely and cordially express our wishes and the result will unquestionably be satisfactory and honorable.

☞The editor of the Calais Journal does us great injustice in saying that we are "in a terrible passion," at the Free Trade course of our neighbor of the Democrat.

Nothing could be further from our feelings than passion at the course of our neighbor. We think his position is more calculated to excite merriment and laughter than passion. His groaning over the enormous *tax* laid on salt, when the fact is, as every farmer and every purchaser of salt knows that the price has greatly diminished since the present tariff went into operation is a case in point.

"Facts are stubborn things," says the Frontier Journal. Certainly; but our neighbor in his love for a few Free Trade sylogisms, insists upon conclusions very much like that of the Irishman, if one stove will save half the wood two stoves must save the whole; and delighting in this form of the question, he insists that a duty laid upon an article increases so much the price to the consumer, and blindly, willfully disregards those 'stubborn things,' actual facts!

If we ever indulged in 'passion' we should be tempted to do so on the misrepresentation of the Journal.

☞Mr Thayer the Judge of Probate in Waldo County assumes says the Signal the authority of insisting that all Probate notices shall be published in the political paper he approves. This is a great stretch of authority. The Judge of Probate in this County, and also the Judge in Hancock County invariably order Probate notices published in our paper when requested so to do. When no request is made they are invariably ordered in some other paper, if in Penobscot County in the Democrat, and if in Hancock County in the Gazette. We have sometimes noticed ten dollars worth of legal notices, published by Whigs, in the Democrat that might just as well have been published in our paper and have aided us in the dissemination of what we and those who pay for those notices believe to be correct political doctrines. But the persons *did not think*; the Judges would have readily consented and no prejudice to the causes of persons before the courts would have resulted.—Will our friends please to think of this matter?

☞We learn that the Rev. Mr Springer has gone to Houlton and Woodstock for the purpose of delivering his lectures on astronomy; after which he will return and visit the Villages of Orrington and Bucksport. These lectures are highly interesting, and the people Mr Springer will visit at the east, will undoubtedly receive him with pleasure.

☞ Henry J. Jones Post Master at Mt Desert has been appointed Post Master at Ellsworth in place of Mr Wood deceased. This appointment is very unsatisfactory to all parties at Ellsworth except a little family clique and was brought about by sly trickery. Ellsworth people do not like the reputation of having to import Post Masters for their town.

☞A lean mail last evening. Nothing south of Boston, and only a part of the regular papers due from Boston.

Dover—Its Natural Advantages—Cold Weather—Temperance—Foxcroft Academy.

To the Editor of the Whig & Courier:

As I hold that "auld acquaintance should not be forgot," and moreover, as I have heard of late, "many a time and oft," the admonitory voice, like that which the Revelator heard, saying unto me, "write," I am strongly influenced, just now, to take up my pen—to use a somewhat antiquated phrase—to address you upon "matters and things in general."

And first,—I must claim the privilege of saying a few words of the place from whence I date my epistle.

Dover must certainly be regarded as a very neat, thriving little village. Situated as it is, in the midst of a fertile tract of country—in the valley, and upon the banks of one of our prettiest rivers, affording water power sufficient to carry any amount of machinery, it would seem to be possessed of all the natural advantages necessary to secure a permanent growth and prosperity

A place so highly favored by nature, could hardly remain unnoticed for any great length of time.

We find, accordingly, all around us, evidences of industry, and increasing business and thrift.

Much of the water is already employed in propelling machinery of various kinds. There are in this village eight merchants doing a fair business, besides two or three, on the opposite bank of the river in Foxcroft village. The new County buildings are now in progress of erection, and many more dwellings have been erected the past season, than on any previous year.

COLD WEATHER.

The weather has been very severe with us this winter—Jack Frost has done a vast deal of mischief in the way of freezing potatoes, which, in consideration of the smallness of that crop the past season, the wise ones think, will have a tendency to make that article command the "ready rhino" about planting time—provided, always, that Miller's theory proves a "humbug."

TEMPERANCE.

The County Washingtonian Total Abstinence Society held its annual meeting at the Baptist Church in this village, to-day. Some 130 or more delegates were in attendance from the various Societies. A good degree of interest and good feeling seems to prevail.

A disposition was apparent on the part of some "adulterated" Washingtonians to insert an "entering wedge"—or perhaps, I might say with as much much propriety—to put out a "feeler," in regard to the use of "*legal* suasion" in the temperance reform. But it was "no go." Despite the tremendous eloquence of its advocates, it was voted down by an immense majority.

FOXCROFT ACADEMY.

I cannot allow myself to close without saying a few words in reference to this school. If your Bangor folks, or anybody else in all this "great country," have any boys and girls to send away to school, they can do no better than to place them under the care of the amiable and popular instructors of this institution—Mr Tash, and Miss Caverno. The school, under their judicious management, has greatly increased—numbering, at the last Fall Term, about 130 scholars Indeed, their reputation as teachers, in "these diggins," needs no pen of mine to trumpet it.

The Spring Term commenced last Monday.—Religious meetings are held in this place every Sabbath, by the Universalist, Baptist, and Congregationalist denominations, and scholars are at liberty to attend either, as choice may dictate.—Board is cheap—from six to eight shillings per week—and boarding places convenient. It is believed that no greater inducements can be offered than this institution affords, to those of our youth who are seeking to acquire an education.

Yours, I.

Prof. Shepard.

We learn that Prof. SHEPARD, of this city, has been unanimously appointed to the Professorship of Theology in the Theological Seminary at Auburn, New York; which professorship became vacant by the recent death of the venerable Dr. RICHARDS.

Dr. WHITE, of New York, Professor in the Theological Seminary of that city, had been previously elected to fill the vacancy; but the friends of that Institution, on learning the appointment, immediately endowed the Professorship which he filled, and he therefore declined.

We are authorized to say, that a tender of the appointment was made to Dr. POND, of this city; but his deep interest in the welfare of the Institution with which he is now connected, and over which he so ably presides, compelled him, notwithstanding that the salary in the Auburn Seminary is larger, and the Institution fully endowed, promptly to decline.

☞The Age has not yet published the official count of the votes in the Seventh Congressional District, as it promised to do What is the matter, pray? Can they not be made to *appear* right, to suit the taste of the locos? Show up, gentlemen—show up!

☞We understand that some of our citizens have recently been drawing water from the public reservoirs. This is an offence against the laws of the city, and we learn that all offenders will be rigerously prosecuted. Let this be a warning.

☞The invalid Pension Bill now before the House of Represensatives in Congress, contains a provision—a very proper one, too—that no Army or Navy officer shall receive a pension while receiving pay from the Government as such.

☞A Committee of the Congress in Texas have made a report on the memorial of Commodore Moore. This report forms a thorough refutation of the frivolous charges preferred against the Commodore, and fully establishes the fact that President Houston has been guilty of gross oppression and tyranny.

Facts on the Tariff.

The Merchants and Business Men of Richmond, Virginia, who do *not* believe that the present Tariff is either beggaring or taxing the Country, have made out a statement of the Wholesale Prices in that market of all the staple articles of import and consumption under the *low* Tariff of 1841 and the *high* Tariff of 1843 respectively. The result must surprise and astound those (if any there be) who seriously believe a Protective Tariff increases prices to the consumer. We must give the facts to our readers, but first state those connected with the Currency and Specie of the country.

It is known to all that Money was scarce and Interest comparatively high in 1841, while in 1843 cash was abundant in the Commercial Cities and interest down to 4 or 5 per cent. on the best paper. Of course, goods, by all Free Trade rules, should have been far higher in the latter year on this account. And again: The official statements show that all the Gold and Silver which came into this Country in the two low Tariff years ending with September, 1841 and '42 (the new Tariff having been imposed in September of the latter year, but after the Country had been glutted with goods in anticipation of it) was $9, 075,649, or a little over *Four and a Half Millions* per year. From Sept. 1842 to Sept. 1843, being the first year of the Protective Tariff, our imports of Specie reached the extraordinary amount of $23,741,648, while the export for the same time was $3,118,399, leaving *a clear gain of Specie during the first year of the Protective Tariff to an amount exceeding* TWENTY MILLIONS OF DOLLARS.

There is nothing like this in the history of our country. In 1834 and in 1833 we imported three-fourths as much, but we were borrowing money abroad heavily, so that this amounted to nothing; while in 1843 we have not only made a net gain of Twenty Millions in Specie but we contracted no debts abroad. On the contrary, we have been buying up our Stocks owned in Europe, and have thus *reduced* the aggregate indebtedness of the Country. This is the way the Tariff is *impoverishing* the Country; now let us see how the People are *taxed* by it.

A Comparative Statement

Of the wholesale price of Goods in the various branches of trade in the City of Richmond, carefully made up from *actual* sales in the year 1841, when the Tariff, under the Compromise Act, ranged at the very lowest rates of duty; and in 1843, the first year after the *oppressive* Tariff, as Demagogues call it, passed by a Whig Congress, went into full operation, viz:

STATEMENT showing the relative prices of leading styles of Dry Goods Jan. 1, 1841, and Jan 1, 1843.

Domestic Goods.	*Jan* 1841.	*Jan.* 1843.
Cotton Oznabergs pr yard	8 a 10 cts.	6½ a 7½

4-4 "	8¾ a 11	6¼ a 8½
6-4 Sheetings.	11 a 14½	8½ a 10½

The prices of Bleached Goods had changed in the same ratio. Domestic Prints (staple styles) 12½ to 18c—3½ to 12½ do. Cloths and Cassimeres and Satinets, reduced *not less* than 33⅓.

The effect of the Tariff on Calicoes or Prints is probably as great as on any other article. During the year 1840, large quantities of British Prints were imported, that cost from 22c to 28c per yard, and in 1843, Prints of as good quality were produced in this country as low as 15c per yard, which entirely *excluded* British Prints from our markets.

The Tariff has not only had the tendency to reduce Domestic Goods, but it may and has reduced Foreign Goods. For example. *Irish Linens* were imported in 1841, *duty free*—in 1843 they paid a duty 25 per cent, and with the duty added are at least 20 *per cent lower* than in 1841.

The prices of Silks have varied less during that time than upon other Goods, yet there was a considerable difference. In 1841 Sewing Silk, &c. paid a duty of 32 per cent, and in 1843, they pay a duty of $2 00 per pound or about 45 per cent. and yet the article can be bought considerably less.—English and French Cloths and Cassimeres in 1841 paid a duty of 33 per cent and in '43 paid 40 per cent and these Goods are *not less* than 20 per cent lower in '43 than in '41.

Almost every style of Domestic and Foreign Dry Goods has been effected in the same ratio as those enumerated, and we are not mistaken in their quotations, for they are copied from our original invoices and inventories under the respective duties of 1841 and 1843.

In bleached Cottons, the decline has been even greater.

Kentucky Jeans declined, from 1841 to 1843, from 25 to 33⅓ per foot.

Satinets declined fully as much, generally.

Flannels do. do. do.

Blankets do. 25 per cent.

American and British prints from 25 to 50 per cent.

Summer Pantaloons Stuffs and Vestings do. do.

Broadcloths and Cassimeres from 20 to 25 per cent

Irish Linens 20 per cent. lower in '43 than '41, and pay a duty of 25 per cent. In '41, this article was duty free.

It will be seen by reference to the very first article named in the list (Salt) which has caused the Loco-Foco snap-pots to boil over at such a tremendous rate at the 100 per cent. duty put upon the *poor man* has been sold throughout the year 1843, at 20 to 25 per cent less than the average of 1841 under the new duty; upon many other important articles, prices have been reduced to a much greater extent and on no important article has the price been increased—this is the oppressive, august, unwise an unconstitutional *Tax*, which the Enquirer, and such like prints make such a tremendous noise and cry about: let the people look into these things coolly and decide for themselves.

Of course, Cotton Goods will be higher in '44 than they were in '43, since raw cotton has risen fully fifty per cent. and probably Woolens will be higher also, as there has been an advance of fifty per cent. on Wool. To complain of this advance in goods as an evidence of extortion by the Manufacturers, keeping out of sight the advance in Wool and Cotton, as the Plebeian and other papers habituall do, is justy as honest and sensible as to hang the bakers for not giving as large a loaf for sixpence when Flour is Ten Dollars a barrel as they did when it was Five. But making due allowance for cost of materials, we contend that the American People never obtained Manufactures cheaper than they do under the present Tariff.—N. Y. Tribune.

☞The English Colony in the island of New Zealand, appear to be exceedingly prosperous. A ship recently arrived in London from that Colony, bringing a full cargo of oil, whalebone and flax. The estimated value of the flax is £20 per ton. The whale fishery had also been very successful, and five or six vessels were expected to be despatched to England with its produce.

Legislature of Maine.

AUGUSTA, Tuesday, Feb. 27.

In Senate. Passed to be engrossed—Bill to lessen the expenses and further to regulate the Supreme Judicial and District Courts—resolve additional for the repair of Fish River Road.

On motion of Mr Townsend, the Senate proceeded to the Report of a Joint Select Committe appointed to contract for the Job Printing and Binding.

On motion of Mr French, as the question was in a new position, it was laid on the table.

In House. Resolve to promote the sale and settlement of the public lands, came up. Mr Jarvis explained its objects. After which,

On motion of Mr Little, the Resolve was laid on the table.

Mr Little called up the Report of the Conference on a disagreeing vote between the two branches, on the Resolve in favor of Messrs Williams, Preble and Emery, recommending the House to recede from its vote refusing it a passage, and concurring with the Senate in its final passage.

After some discussion the Report was accepted, so as to bring the Resolve before the House.

After further discussion the question on receding from the former vote, and finally passing the Resolve in concurrence with the Senate, was then taken by yeas and nays, and decided in the affirmative—84 to 39.

So the Resolve finally passed, granting Messrs Williams, Preble and Emery, $750 each for services as Boundary Commissioners in 1832.

AUGUSTA, Wednesday, Feb. 23.

In Senate. Passed to be engrossed—Resolve making appropriation for the repair of the Canada Road—Bill authorising the sale of the reserved lands, in township No. 1. Range 3, east of the Kennebec River, in Bingham Kennebec purchase—Resolves providing for the choice of electors of President and Vice. President of the United States, amended—Resolve additional concering certain early records of the Province of Maine.

These Resolves were passed.

In House. Resolve in favor of Joseph Pomroy, (granting him a millitary pension of $— per month) was read a second time. Mr Brown of Hermon, advocated the resolve. Mr B., stated that Mr P., was in the battle of Hampden, in 1814, and wounded by a ball piercing his leg. Mr Morison of Livermore, made a full statement of facts. After which, the Resolve passed to be engrossed.

Mr Woodman called up the Resolve for an amendment of the Constitution in favor of summer sessions of the Legislature.

The question on passing the Resolves to be engrossed was then taken and decided in the negative by yeas and nays, yeas 77 nays 57.

The constitutional majority of two-thirds not being obtained, the resolves were refused a passage.

Passed to be enacted—Bill establishing an additional Probate District in Lincoln county.

Finally passed—Resolve for the repair of the Machias and Aroostook Road.

Adjourned.

The following letter from Mr. Robert Plunket, shews that those afflicted with Dyspepsia need not despair in being cured effectually by the use of the Life Pills and Phœnix Bitters.

ROCHDALE, (Geo.) Feb. 12, 1843.

DR. WM. B. MOFFAT—I trust you will not consider me presumptuous in offering you, through this medium, my sincere thanks for my recovery from Dyspepsia, with which I have been afflicted for two years, and through the use of your inestimable and life-giving Life Pills and Phœnix Bitters. All other pretended remedies failed until I had recourse to yours, when but a few doses and consistently taken, I felt a change throughout my whole frame equal to that of between summer and winter.

I heartily recommend the Life Pills and Phœnix Bitters to all similarly afflicted, and firmly believe them to be what they are represented to be—a remedy for all diseases that flesh is heir to.

I have much pleasure in subscribing
Myself, your very grateful,
And obedient servant,
ROBERT PLUNKET.

DR. TAYLOR'S BALSAM OF LIVERWORT.

PRICE REDUCED.

DR. TAYLOR'S Balsam of Liverwort, from 375 Bowery, New York—for the cure of Coughs, Colds, Catarrhs, Asthma, Soreness of the Chest, Pain in the side and Breast, raising of Blood, Liver complaint, Bronchitis, and all those affections of Throat and Lungs which are a source of so much suffering and unarrested, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medicinal properties, and witnessing its effects even in extreme and in some instances apparently almost hopeless cases, often prescribe it in their practice, both as a palliative and a remedy, and with the Medical Faculty generally it has met with great approbation.

CONSUMPTION.—The following remarks were taken from the last number of the Medical Magazine:

"The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in consumptive cases, cannot fail exciting a deep and thrilling interest throughout the world. We have so long considered this disease (consumption) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence."

Certificates from the highest and most respectable sources, or persons who have been either greatly relieved by it, or entirely recovered from affections of the Lungs and Liver, could be furnished in abundance, but we insert only the following

CERTIFICATE.

Liver Complaint and General Debility. I was given up by two physicians, and told to prepare for death. I was so weak I could not raise my hand to my head. I was in this low state, when a friend sent me a bottle of Dr. Taylor's Balsam of Liverwort, from 375 Bowery, and before I had used up the bottle, I was able to sit up in bed. By the further use I have completely regained my health.

GEO. WELLS, 23 John-st.

For a common cold and cough, this is one of the very best remedies ever discovered.

N. B. There is a spurious and counterfeit article afloat; therefore be careful to get the genuine, which is from 375 Bowery, N. Y., and is for sale by

LORRAINE'S PILLS,

OR VEGETABLE UNIVERSAL MEDICINE CURATIVE

OF THE

French College of Health, in Paris.

THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of *Lorraine's Vegetable Universal Pills.*

SIR—I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inutility of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.

J. E. NEWHALL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

SIR—It ook one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

Yours truly, J. B. LIGHT.

Nov. 20th, 1841.

[From Boston Daily Mail.]

Somebody wisely says, that a cap loaded with ewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

SIR—I have been effectually cured of a severe headache by the use of Lorraine's Pills.

SARAH NOYES.

SIR—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.

Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

Family Medicine.

SIR—I have used Lorraine's Pills in my family as family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 2rom 25 to $100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL.

Hartford, Conn. July 8.

Lame Back.

Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.

Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood.

The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

NEW PRINCIPLES OF PURGATION,

CORNARO'S

Purifying and Preserving PILLS.

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CONTINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most widespread and alarming character. They have reached through every vein and artery of our nation.—In every city, and village, and hamlet—in every State and Territory of our vast Republic, will be found those who have suffered, or who are still suffering from the injurious effects of this old system, of whose practical utility the disease, decay, and utter prostration of those who test it furnish the most condemning proofs.

COMMON DRASTIC PURGATION

Scours out the system by the most improper and violent means, and then leave it, weak, low, feeble debilitated, to regain its strength as best it may.—Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed. Sometimes the digestive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURIFYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz:

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remedy strikes a death blow to that abominable system, which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient. These Purifying and Preserving Pills are believed to constitute the perfection of medicine, being a UNIVERSAL VEGETABLE PURGATIVE, containing two great remedies combined, viz: One remedy to PURIFY FROM CORRUPTION, and another to PRESERVE FROM INJURY AND DECAY.

And for the purpose of attaining the highest degree of purity in the preparation of these Pills, Dr. Bradlee has, at a vast expenditure of time and money, invented and patented at Washington, a chemical and philosophical apparatus for distilling and refining vegetable extracts, called

THE SEVEN-FOLD FURNACE,

A powerful and novel machine—having Seven Fires and Seven Alembics, with distilling, condensing, and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine. The Baliamic and Preserving power of these Pills is also, by this invention, highly purified and refined, and so mingled with the operative medicine, that it repairs all the injuries created by Purgation as soon as they are caused, and strongly fortifies the system against future corruption and decay.

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine which purges merely, without renovating or preserving, can be a perfect remedy. For it is a fixed and immutable law of our being that there should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious, and injurious only—and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws, and they who follow it fall victims to their own folly, and too late repent their temerity.

☞BEWARE OF UNRELIEVED PURGATION! Purge and Preserve, or do not attempt to Purge at all.

☞The celebrated PURIFYING AND PRESERVING PILLS purify the body from corruption and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice, Indigestion, Dyspepsia, Eruptions of the Skin, Scrofula, Piles, Costiveness, Bilious Disorders, Liver Complaint, Fevers, Nervous Disorders, Inward Weakness, Cholic, Dysentary, Worms, Gout, Rheumatism, Female Complaints, Depression of Spirits, Debility of System, Fits, &c., &c.

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM,

NAMELY:

Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine:

NEW YORK, August 3, 1842.

"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, 'from the crown of my head to the sole of my foot there was no soundness in me.' From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swaim's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly $3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near $3,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.

PAUL BURDOCK."

Prepared and sold by A. B. SANDS & Co. Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States. Price $1 per bottle, six bottles for $5.

The public are respectfully requested to remember that it is Sands's Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands's Sarsaparilla, and take no other.

Dr. D. Jayne's FAMILY MEDICINES.

JAYNE'S EXPECTORANT.

THIS invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Whooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soreness of the Breast, Difficulty of Breathing, and every other disease of the LUNGS and BREAST, can and do attest to its usefulness. BRONCHITIS, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of CONSUMPTION, is always cured by it. The usual symptoms of this disease, Bronchitis, are Cough, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a Spitting up of Phlegm or Matter, and sometimes Blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run throu every part of the Lungs. The Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a cure is soon effected.

It always cures ASTHMA. Two or three large doses will cure the CROUP, or HIVES of children, in from 15 minutes to an hour's time. It immediately subdues the violence of WHOOPING COUGH, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to perfect health by it.

If this Expectorant be given in the commencement of PLEURISY, INFLAMMATION OF THE LUNGS, or in acute RHEUMATISM, in doses sufficiently large, so as to cause a little nausea for some time, going to bed and covering up warm, it will produce perspiration, and subdue these affections at once.

PRICE $1,00.

Tonic Vermifuge.

WORMS IN CHILDREN. Of all diseases to which children are exposed, none are so fatal to them as WORMS. Unfortunately, children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. They are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, and obstructing the bowels, and frequently the throat, causing convulsions, and too often death. The desired remedy will be found in Dr. JAYNE'S TONIC VERMIFUGE, which will very soon destroy the worms, and invigorate the powers of digestion so as to prevent a return of them. PRICE 50 cents.

JAYNE'S CARMINATIVE BALSAM.

This is one of the most efficient, pleasant and safe compositions ever offered to the public, for the cure of the various derangements of the *Stomach* and *Bowels*, and the *only* article worthy of the least confidence for curing CHOLERA INFANTUM or SUMMER COMPLAINT: and in the above and following diseases, it really acts like a charm, viz:

Dysentery, Diarrhea or Looseness, Cholera Morbus, Summer Complaint, Cholic, Griping Pain, Sour Stomach, Sick and Nervous Headache, Heartburn, Water-brash, Pain or Sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged; Want of Appetite, Restlessness and Inability to Sleep, Wind in the Stomach and Bowels, Hysterics, Cramp, Nervous Tremors and Twitchings, Sea Sickness, Faintings, Melancholy and Lowness of Spirits, Fretting and Crying of Infants, and for all *Bowel Affections and Nervous Diseases.*

PRICE 50 cents.

Hair Tonic.

NO EXCUSE FOR A BALD HEAD. Since the important discovery of Dr JAYNE'S HAIR TONIC, every one may, if they choose, preserve their hair from falling off, or if already bald, may, with certainty, have their hair restored again by a faithful and persevering application of this valuable HAIR TONIC.

Please to read without prejudice the following communication, which, in addition to hundreds of others equally respectable, should remove the doubts of every reasonable person of the uniform and singular efficacy of JAYNE'S HAIR TONIC.

HAMILTON, Feb. 15, 1840.

Dr. D. Jayne—Dear Sir: I cannot say my hair is restored, but I can say that it appears to be in as rapid a process of restoration as could reasonably be expected. I had not finished the first bottle, before a decided change was manifest over the bald part of the head, to which it was applied. A new growth of fine glossy hair, much like that of an infant, appeared, and has continued to increase, and I have had it cut two or three times. I have recently commenced upon the third bottle, but have been a good deal irregular in the use of the Tonic from the first, and from this cause I apprehend the effect is at present less than it otherwise would have been.

I began the use of the Tonic with little or no faith that it would ever be successful on my head, though I felt entire confidence in your statements of what it had done for others; and I was as much surprised as delighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch long at the times I have had it cut, on those parts which were nearly destitute of any when you saw me. It was, however, very fine, though quite thick. I am flushed with sanguine hopes of final success, in the diligent use of your Tonic, which, amidst all the hair humbugs which have been advertised in the papers, I am constrained to believe is what it claims to be, and that it will make the hair grow, and no mistake, at least on some heads.

Jayne's Sanative Pills.

These Pills are an excellent, mild and safe purge at all times, and are exceedingly useful in Dyspepsy and obstructions of the Liver. Persons taking them can eat and drink as usual, without fear of injury; and, what is of infinite advantage, making the use of mercurial preparations, so frequently used in derangements of the stomach and liver, unnecessary.

These Pills may be taken at *all times*, and are beneficial in nearly *all diseases*. They have long been a favorite prescription of the proprietor for all obstructions of the Liver, Spleen, Kidneys, Uterus, and all other organs of the body—Inflammatory, Intermittent, Remittent, Bilious, and every other form of Fever—Jaundice and Liver Complaint. For Dyspepsy they are really an invaluable article, gradually changing the vitiated secretions of the stomach, and producing healthy action in that important organ. They are very valuable in diseases of the Skin, and for what is commonly called "impurity of the blood," also for Female Complaints, Costiveness, &c. &c.—and in fact every disease where an Aperient, Alterative or Purgative medicine is required.

☞Four fifths of the numerous and distressing cases of DYSPEPSY POSITIVELY CAN BE CURED by a persevering use of this valuable SANATIVE.

They are expressly prepared to be used as an Aperient, when purging is necessary, while using his Expectorant, and for the removal of obstructions in the Liver, which are often attendant on some of the diseases of the Breast.

Prepared only by Dr D. Jayne, Philadelphia.

WRIGHT'S Indian Vegetable Pills.

The True Character of Counterfeiters & Sellers of Counterfeit Medicines.

NO Medicine has been introduced to the American Public, whose virtues have been more cheerfully and universally acknowledged, or its vast popularity, and extensive circulation, than "*WRIGHT'S INDIAN VEGETABLE PILLS.*"

To descant upon their various virtues at this late season would be a work of supererogation, since few who peruse this article will be found unacquainted with the widely circulated proofs of their real excellence of the Medicine, to which many will be ready to add the testimonials of their own experience. But if further proof were needed, to show the value of the remedy it might be found in the fact that no Medicine in the market has been more shamelessly and repeatedly counterfeited. Ignorant, envious, avaricious, and unprincipled men have in different places, manufactured a spurious pill, bearing a superficial resemblance to the true article, but composed either of impotent or deleterious ingredients, which they have sought to foist upon the public as the veritable

Indian Vegetable Pills.

These fraudulent Swindlers could never pass their vile wares upon the public but for the connivance and assistance of self-styled respectable Druggists, who, for the sake of a little "filthy lucre," lend themselves to the monstrous and unhallowed system of imposition. The counterfeiter of a popular medicine is more criminal than a counterfeiter of current money. The injuries done by the latter sink to nothing in comparison with those inflicted upon society by the former. We might paint him wringing the mite from the hard hand of invalid penury which is extended for the boon of health, and receives instead the vile drug that contracts and aggravates disease, or to view it in its best aspect, suffers it to rage unchecked. But melancholy is the reflection that thousands annually have been hurried to the grave by having a counterfeit substituted for the true Medicine; who for the venal fraud might now be living in health, the delight and hope of the social circle. All classes are interested in putting down the vile Counterfeiters.

Let the Stores where they are sold be marked and Shunned.

Let the virtuous indignation of the community administer to all concerned in these unfair practices a general and withering rebuke.

CAUTION:

The public will please observe that the genuine Medicine has the following wording on the sides of the boxes.

"WRIGHT'S INDIAN VEGETABLE PILLS,"

—Indian Purgative—

OF THE NORTH AMERICAN COLLEGE OF HEALTH.

And also, around the border of a label will be found in small type, "Entered according to Act of Congress in the year 1840, by William Wright, in the Clerk's Office of the District Court of the Eastern District of Pennsylvania."

It will be further observed that the printed direction for using the Medicine, which accompanies each box, are also entered according to Act of Congress; and the same form will be found at the bottom of the first page.

The slightest attention to the above few particulars will serve to protect the purchaser from fraud and save the lives of those who may otherwise be endangered by using a Counterfeit Medicine.

The public will also remember, that all those who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by

WILLIAM WRIGHT, *Vice President Of the American College of Health,*

and that Pedlars are never in any case allowed to sell the genuine article. All traveling Agents will be provided with a certificate of Agency as above described; and those who cannot show one will be known as base imposters.
